TURKEY / KOCAELİ

Where Are We?

Kocaeli is located at the eastern side of Marmara Region, in an important transition route that connects Asia to Europe. Being a natural port, İzmit Gulf is a busy seaway. As a result of the rapid industrialization, many people immigrated to Kocaeli. Today having various economic and social roles, the province constitutes an integral part of Istanbul Metropolitan area. Kocaeli is a well-known city with its large population and intense industrial activities but recently there have been serious developments in culture, arts and education.

Kocaeli Province

Kocaeli Province is a province of Turkey. Its capital is İzmit, which is also sometimes called Kocaeli. The largest towns in the province are İzmit and Gebze. The traffic code is 41. The province is located at the easternmost end of the Marmara Sea around the Gulf of İzmit. Kocaeli is bordered by the province of Sakarya and the Marmara Sea to the west, the Black Sea to the north, the province of İstanbul the east, the province of Bursa to the south and the province of Yalova to the southwest. The metropolitan area of İstanbul extends to the Kocaeli-Istanbul provincial border. The size and natural conditions of the Bay of İzmit allow for extensive port facilities, including the Gölçük Naval Base. The province is called the industrial capital of Turkey. Kocaeli has an airport named Cengiz Topel Naval Air Station which is used for military and civilian transport. Kocaeli has two universities: Kocaeli University and Gebze Institute of Technology.

The Gender Rates in Mobilities

KPDONE has run 11 EU projects so far. We are still running a Leonardo Da Vinci Transfer of Innovation Project as a partner which will end in 2015. KPDONE was the Coordinator of Grundtvig Learning Partnership between 2012 and 2014. KPDONE had 3 LDV Mobility VETP-RO projects, 2 LDV Partnership projects, 2 LDV Transfer of Innovation projects, 1 Comenius Multilateral project, 1 Comenius Regio project, 1 Comenius Network project, 1 KEY ACT 2 language Project in 7 years.

B

y these projects we tried to add a European value to our Institution. We run these projects so as to improve our capacity of project implementation on education by exchanging of expertise among partner organizations within the relevant EU projects. The partnership brings together different countries from different parts of Europe with various demographic features. This helps us to be aware of being a European citizen. The participants of the project are able to take an active part in the exchange of European experience. The cooperation contributed to the development of quality lifelong learning and participants had the chance to be aware of the European dimension. Internalisation is very important for our institution; this will be provided by taking part in European projects with different partners from different countries. The international meetings give us a chance to present our strong vision. Having met our vision our partners wanted to collaborate with us in future projects.
